# Jaycee Dugard EXPOSED

abc NEWS EXCLUSIVE abc NEWS .com

Jaycee Dugard now 31 speaks to the press.

These individuals are the major players in this staged event. All are all found in the same 2009 Pima County Sheriff Dupnik's Annual Awards Booklet.

This is the front cover of the 2009 Pima County Sheriff Dupnik's Annual Awards Book that is downloadable from their site.

We were told that Dugard was kidnapped from South Lake Tahoe in 1991, then sexually abused for 18 years by Phillip and Nancy Garrido. During her years living in the Garridos' backyard in the eastern San Francisco Bay area city of Antioch, she gave birth to two daughters by Phillip Garrido.

**This EVENT never happened, it was ALL a lie.**

Every person involved with this event can be identified as a person using another name pictured in the 2009 Pima County Sheriff Dupniks Annual Awards Booklet. Downloadable for [pimasheriff.org](http://pimasheriff.org).

The individuals in this and the other two published books 2008 and 2010 consists entirely of actoras. How do we know this? Because not only are the individuals yofrom this event present on the pages, and in some cases on the same page as each other, but so are the Casey Anthony, actors, Gabriel Giffords event, And several other high profile front page news stories. Why did they propagate this lie to the public?

The following information uses scientific methods that are proven and repeatable to identify by photograph the individuals in the book to the persons we are told involved in the Jaycee Dugard event.

My findings are posted and available for download for others to test and verify or disprove my findings.

Visit [Wellaware1.com](http://Wellaware1.com) to download this document and the Pima booklets.

Ms. Regina Billings  
Public Safety Transcription Technician

Since being hired in November 2006, Ms. Regina Billings has become one of the most professional, dedicated and dependable transcribers working for the Sheriff's Department. She has assisted the Dial Dictation Systems (DDS) Unit with reorganizing and meeting performance goals that were instituted after a long period of minimal staffing and an extensive backlog of dictations. In December 2007, the DDS Unit doubled in size with the addition of eighteen new transcribers. In order to help complete the pending dictations, those employees had to be trained and assessed in their ability to do the work. Ms. Billings voluntarily accepted and completed all assignments and challenges presented to her in a positive manner to support the DDS Unit's forward progression.

Controllers are exercise participants who plan and manage the exercise play, setup and operate exercise venues, and act in the roles of response individuals and agencies not actually playing in the exercise. Controllers provide key data to players and may prompt or initiate certain player actions to ensure exercise continuity. Controllers are the only participants who will provide information or direction to the players<sup>(1)</sup>

## Controller Communications.

The principal method of communications for controllers during the exercise will be via mobile phone. Some information may be exchanged via email or text as well. Controllers may ask participants to pass information to controllers in other exercise locations using the established emergency communications network. Player Communications. Player elements will use routine, in-place agency communications systems and those arranged and established in accordance with the TICP. The need to maintain capability for a real-world response may preclude the use of all communications channels or systems that would usually be available for an actual incident. Here we see Gabe Hernandez, the intern that claims to have held Giffords bleeding head in his lap while he applied pressure to the wound. Yet he manages to walk away without even a single drop of blood on his hands, clothes, or even the white cloth on her wound. If any piece of evidence shows this was a drill, better than this one then I'm unaware of it. For even a small gash in your head will cause much more blood loss that if it occurs to another part of the body. We are told it was a THROUGH head wound, and he come away without a drop on him. Are you beginning to see through the BS?

They wont show you this on the US networks. This is the Command Center the spoke about in the dispatch audio. Why two? Since they all ready have the large white mobile command and control center (upper right corner). This is IN NY OPINION where they sit and had their lunches and reviewed notes. Notice how it has a perimeter set around it with large vehicles. To reduce the risk of spying eyes? Digital Cameras and cell phones are restricted by the Actors, I'm not sure if that goes for the agencies that participated. If I'm wrong then show me a photo of the inside. It only takes one person from the Sheriff's department to be shown playing the part of an actor in the event that day, to prove without a doubt that the official story is a lie. ONLY 1. There is no need for actors in a real event. If you agree that 1 of these individuals pictured below is in fact the same individual pictured on the right, then what you've been told is a lie. There is no other explanation for these two to be inside the crime scene area unless they are playing the roll of an actor. They even are carrying the water that was provided to the participants as stated in the ExPlan document. and you need to demand a full investigation.

If the crime of assassination and attempted assassination of a Federal Judge and a Us representative, not to mention the others that were said to of been killed and injured, do you think the Police would allow people to "pull up a chair and sit", or hang around inside the crime scene tape? Where are the bodies? Where are the tape mark? Are we looking at a crime scene or the actors in between scenes resting as they await the next set of instructions? The long shadows running east to west tell us this is scene is not long after the shooting took place. But no sign of blood, bodies, tape marks, or securing of the scene to be found.

The two end images were taken 2 years ago since then she has lost weight and had her nose worked on. During the first few days after the Giffords shooting she would only appear with her sunglasses on. Then after about a week we began to see her without them and could see she has something wrong with her left eye. In the two year old photo there is a small sign of this same eye problem. Although I'm not a doctor it looks similar to a tear palsy symptom, or it may be caused by some facial trauma and this is why she was wearing her sunglasses. We know it's not because of tears because we never saw any.

## TOM MCMAHON

When the shots stopped, Mary Brown, Tom's wife told her daughter, Emma McMahon she had been hit.

Emma called 911 but forgot to tell the operator that her mother had been hit, but she did manage to tell the operator that she would be hiding in the back of the store where it was safe.

Here we see Tom Brown Mary's Husband. But where is Mary? I guess she went to the hospital, or perhaps she is resting up for the next scene to begin. This image is taken obviously after the event was said to have taken place. The simple fact that Mary's husband is still hanging around and not at the hospital proves this was a drill.

But if that's still not enough there is more..

## CONTROLLERS

Controllers set up and operate the exercise site, plan and manage exercise play, and act in the roles of response individuals and agencies that are not playing in the exercise. Controllers direct the pace of exercise play; they routinely include members of the Exercise Planning Team. They provide key data to players and may prompt or initiate certain player actions to ensure exercise continuity. This is why two of the individuals are wearing gloves and the thirds is reading the key data to them so they can be evaluated on their actions

## EVALUATORS (people with clip boards)

Evaluators evaluate and provide feedback on a designated functional area of the exercise. They are chosen on the basis of their expertise in the functional area(s) they have been assigned to review during the exercise and their familiarity with local emergency response procedures. Evaluators assess and document participant's performance against established emergency plans and exercise evaluation criteria, in accordance with Homeland Security Exercise and Evaluation Program (HSEEP) standards. They typically are chosen from planning committee members or agencies or organizations that are participating in the exercise..

## ACTORS

Actors simulate specific roles during exercise play. They typically are volunteers who have been recruited to play the role of victims or other bystanders

Photo of Rebecca Joy. Rebecca is not a real person only a made up cover for Jennifer to use for some of her business dealings. We can clearly see she is also playing several other parts in news events you believe to be real but are actually scripted

In other photos of her from her facebook page it looks like she is wearing 2 false dental vereres on the front two teeth.

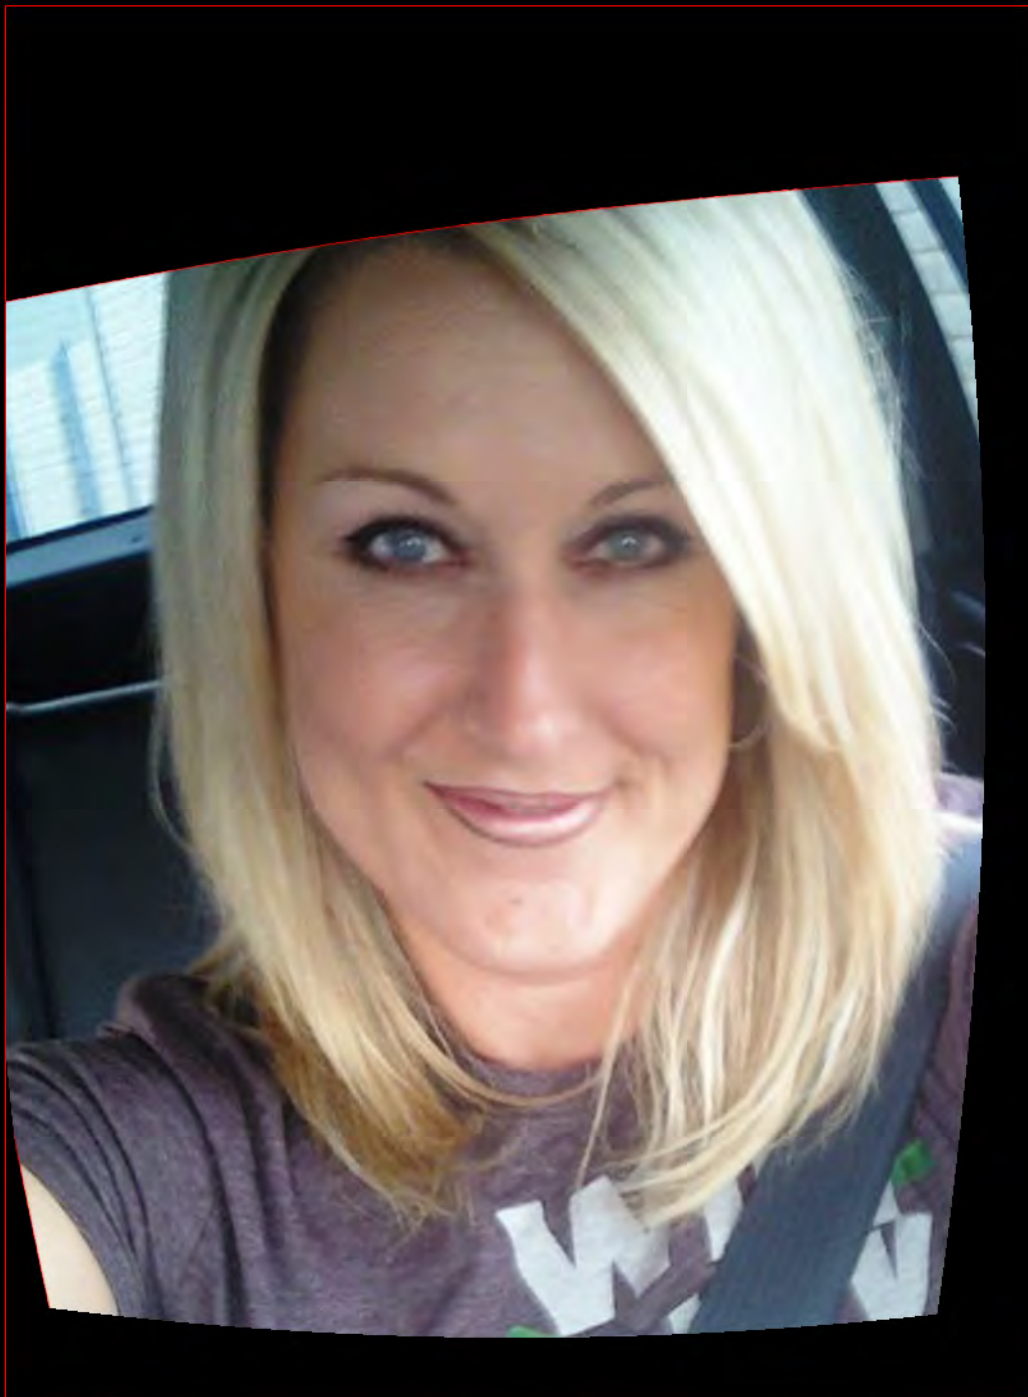

Giffords who we now know is not who she says she is.

## Jennifer

This Jennifer was found while digging in an account of a person of interest meetup listing. The listing was for an actors group in phoenix that has members that are of interest to my investigation (more on them later) The persons account she is listed as a friend on is connected to the Bradley Manning fictions character. I am unaware if this person is aware of who she really is but looking at the rest of her profile it is clear she is Jennifer Greenberg.

## Giffords

Shot is reportedly said to have been taken moments before the fake shooting.
